10am - Noon and  
12:30pm - 4:30pm  
Closed holidays

### HHW Facility

Bldg. 19  
Boat Haven  
282 10th Street  
Port Townsend  
360-385-9160

### Latex / Acrylic Paint is non-hazardous and is NOT accepted as HHW.

**Re-use:** Check with used building materials stores for acceptance of full, properly labeled paint cans.

#### Disposal:

1. Mix **1 part absorbent\*** into **1 part latex paint**. Paint cans more than half full can be mixed with absorbent in a lined cardboard box.  
\* examples: cat litter, wood stove pellets, dry sawdust, concrete mix
2. Stir in absorbent until paint has a non-pourable oatmeal-like consistency (drier is better).
3. Allow the mixture to sit for at least one hour.
4. With paint lids removed, dispose of the thickened paint with regular household trash.
